

THE NEW METROBUDDY: FEATURING LOW CO₂ FOOTPRINT BODYWORK MATERIALS BY

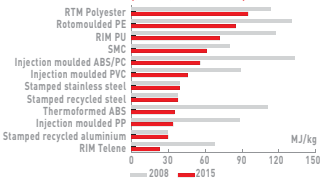

Telene[®]

An Environmentally Sensible High Performance Thermoset

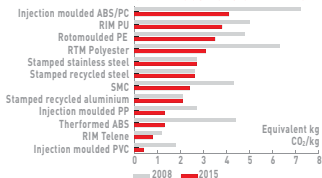

- Outstanding impact and corrosion resistance
- High surface quality
- Weight reduction thanks to its intrinsic low density (1.03 g/cm³)
- Favourable LCA (life cycle analysis)
- Low greenhouse gas generation

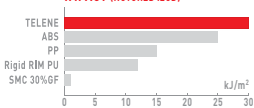

CUMULATIVE ENERGY (PER 1 KG FINISHED PART)

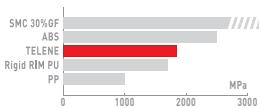

GREENHOUSE GAS GENERATION
